

Georg Oeltzscher, PhD

**Instructor of Radiology and Radiological Science
Russell H. Morgan Department of Radiology and Radiological Science
Johns Hopkins University School of Medicine**

I am an Instructor of Radiology, specializing in magnetic resonance spectroscopy (MRS) in the human brain. Over the course of my career, my research has been dedicated to advanced MRS methods for the detection of low-concentration metabolites, like the primary inhibitory neurotransmitter γ -aminobutyric acid (GABA), and the major antioxidant glutathione (GSH). More than eight years of experience in the field have provided me with a strong methodological background in MR physics data analysis, enabling me to develop accelerated MRS methods with increased precision for research and clinical purposes.

I have extensive experience working with clinical populations with neurological and psychiatric conditions such as hepatic encephalopathy, autism spectrum disorder, Tourette's, tuberous sclerosis, and glioblastoma. Recently, I acquired independent funding to study brain metabolism in mild cognitive impairment with advanced MRS and PET methods.

Collaborative science is a deep passion of mine, and I maintain a strong focus on developing and disseminating free, open-source, peer-reviewed data analysis methods to advance the comparability, reproducibility, and robustness of MRS.

APPOINTMENTS

2020 – present **Instructor of Radiology and Radiological Science**
 The Russell H. Morgan Department of Radiology and Radiological Science
 The Johns Hopkins University School of Medicine, Baltimore, MD, USA

EDUCATION / TRAINING

2016 – 2020 **Postdoctoral Research Fellow**
 The Russell H. Morgan Department of Radiology and Radiological Science
 The Johns Hopkins University School of Medicine, Baltimore, MD, USA
 Supervision: Prof. Richard A.E. Edden

2012 – 2015 **PhD (magna cum laude)**
 Institute of Clinical Neuroscience and Medical Psychology
 Department of Diagnostic and Interventional Radiology
 Universitätsklinikum Düsseldorf
 Heinrich-Heine-Universität, Düsseldorf, Germany
 Supervision: Prof. Dr. Alfons Schnitzler

2003 – 2010 **Physics**
 Heinrich-Heine-Universität, Düsseldorf, Germany
 Lund University, Lund, Sweden (2009)
 Degree: Very good (1.0) with honors

FUNDING

1K99AG062230-01 (PI Oeltzschnner)	04/01/2019 – 03/31/2021
NIH/NIA	\$170,968 (total cost)
Towards a comprehensive neurometabolic profile in patients with mild cognitive impairment	
This project is dedicated to developing advanced spectral edited MRS/MRSI techniques with large spatial coverage to investigate brain metabolite levels in patients with mild cognitive impairment.	

ORGANIZATIONAL ACTIVITIES

Professional societies

- 2015-present Member, International Society for Magnetic Resonance in Medicine (ISMRM)
2015-present Member, Organization for Human Brain Mapping (OHB)
2012 Member, German Society for Medical Physics (DGMP)

Committee memberships

- 2020-present Founding member, Committee on MRS Code and Data Sharing, MRS Study Group of the International Society for Magnetic Resonance in Medicine (ISMRM)

RECOGNITION**Honors, Awards**

2020	1 st Prize of the MR Spectroscopy Study Group, 28 th Annual Meeting of the International Society for Magnetic Resonance in Medicine (ISMRM) 2020 (virtual meeting)
2019	Educational Stipend, 27 th Annual Meeting of the International Society for Magnetic Resonance in Medicine (ISMRM), Montréal, Canada
2018	Educational Stipend, 26 th Annual Meeting of the International Society for Magnetic Resonance in Medicine (ISMRM), Paris, France
2017	Best Presentation, 20 th Annual Division of Johns Hopkins MR Research Retreat, Liberty Mountain, USA
2017	Educational Stipend, 25 th Annual Meeting of the International Society for Magnetic Resonance in Medicine (ISMRM), Honolulu, USA
2013	Student Presentation Award, 2 nd International Symposium on MRS of GABA, Cardiff, UK

Panels

- 01/29/2020 “In-vivo magnetic resonance spectroscopy of GABA to study anxiety”
Panel “The Highs and Lows of Gabaergic Transmission in Anxiety: Reconciling Contradictory Findings from Rodents and Humans Studies”, Winter Conference on Brain Research (WCBR) 2020, Big Sky, United States

Invited talks

- 09/25/2020 “New techniques in edited magnetic resonance spectroscopy”, Vanderbilt University Institute of Imaging Science, Vanderbilt University, Nashville, United States
06/25/2020 “MRSHub – An Online MRS Code & Data Repository”, ISMRM MR Spectroscopy Study Group Virtual Meeting (joint talk with Brian J. Soher and William Clarke)
04/28/2020 “Progress in edited magnetic resonance spectroscopy”, joint virtual talk with Richard Edden, Wellcome Center for Integrative Neuroscience, University of Oxford, Oxford, UK
12/05/2019 “New Frontiers in edited magnetic resonance spectroscopy”, Athinoula A. Martinos Center for Biomedical Imaging, Massachusetts General Hospital / Harvard Medical School, Boston, United States
11/06/2019 “New Frontiers in edited magnetic resonance spectroscopy”, Department of Kinesiology, University of Georgia, Athens, United States
05/09/2019 “New Frontiers in edited magnetic resonance spectroscopy”, CERVO Brain Research Centre, Université Laval, Québec City, Canada
11/20/2018 “New Frontiers in edited magnetic resonance spectroscopy”, Neuroscience Institute, New York University Medical Center, New York City, United States
10/31/2017 “An Introduction to Edited MRS of GABA”, Department of Physiology, University of Ljubljana, Ljubljana, Slovenia
9/26/2017 “New Frontiers in edited MRS – Measuring multiple metabolites in multiple regions”, Central Institute for Mental Health, Mannheim, Germany
6/23/2017 “Edited Magnetic Resonance Spectroscopy of GABA – Applications and New Frontiers”, Department of Psychiatry, University of British Columbia, Vancouver, Canada

PROFESSIONAL SKILLS

Strong proficiency

Clinical MRI scanner operator on various platforms (Siemens 3T, Philips 3T/7T)
Data acquisition from healthy and clinical populations of all ages (pediatric, adult, elderly)
Protocol design, sequence optimization, acquisition and analysis of conventional and edited MRS
All major MRS analysis software packages (LCModel, jMRUI, Tarquin, Vespa)
Full density-matrix simulations of MRS experiments in MATLAB
Full software development in MATLAB (Osprey, Gannet)

Good proficiency

Analysis of functional and structural MRI data with various major software packages (SPM, FSL)
Statistical analysis (R, SPSS)

Basic proficiency

Philips and Siemens MR sequence development
DWI/DTI/DKI acquisition and analysis
Software development in C/C++ and Python

TEACHING ACTIVITIES

Mentees

2020 – present Helge Jörn Zöllner, postdoctoral research fellow

Supervised students

2016	Marc Jonuscheit, BSc
2015	Helge Jörn Zöllner, MSc
2014	Frithjof Wickrath, MSc; Viktor Pfaffenrot, BSc; Dennis Pantke, BSc
2013	Lukas Gottwald, BSc; Helge Jörn Zöllner, BSc
2012	Elif Cankaya, BSc
